

Château Climens

1^{ER} CRU • BARSAC
GRAND VIN DE SAUTERNES

Château Climens Petite Lily 2022

Benefiting from the same attention as its predecessors, the Petite Lily cuvée is an admirable addition to the range of dry white wines produced by Château Climens. Once again, it is the expression of the magnificent limestone terroir of Haut Barsac and the finesse of the Sémillon grape variety, with the same determination to produce a Demeter-labelled wine that is accessible in every way and easy to drink when young. A fine introduction to the world of Château Climens in its "dry white wine" version.
